

Existing application solutions

Group Me: while it does provide the group chat feature it does not provide ease of access to the specific classes and does not provide motivation for students to use it

Bryce

Ideas for Application

List classes of UofSC so that students can easily find groups dedicated to the class they need it for

Bryce

Issues

Students will need a way of signing in due to privacy concerns regarding the application

Bryce

Logistics

Some kind of server or central location for all data to be located

Bryce

Possible Solution to Issues

utilize the school system for creating accounts specified to the school

Bryce

Discord: while it does have the ability to connect to school accounts and has plenty of options regarding setting up in person meets and virtual study sessions, it does not have the ability to be compatible with others

Bryce

Provide user the ability to create group chats with others to facilitate conversation

Bryce

Having access to school systems is a security risk and is unlikely to happen

Bryce

Limiters and bounds that keep users from overloading system

Bryce

A true integration is not required for the ability to sign in and certain items could probably be easier to access without the need of using the school servers

Bryce

Have ability to schedule study group times and integrate it with google calendars and other reminder / calendar applications

Bryce

the idea behind this application is only useful if there is some form of awareness for it

Bryce

Ability to moderate what users are following specified rules

Bryce

There could be advertising and joining in on campus events can help spread awareness of the application

Bryce

Ability to add descriptors / traits that allow for compatible members in study groups

Bryce

Required fixes and updates to the app will probably be needed

Bryce

Roles surrounding upkeep, management, managing roles, and collaboration

Bryce

Have a system to push updates when necessary and be able to make quick fixes without the need of pushing updates

Bryce

Ability to see study groups that fulfill the needs of the student

Bryce

getting school involvement and trying to allow for integration of school servers for the application

Bryce
